- Helps companies attain ISO 14000
- Environmentally friendly product
- from raw material, production to disposal

		ISO 14000
ISPM 15 EXEMPTED	REACH compliant	RoHS compliant

FROM NATURE TO NATURE

- GPac™ prides itself on using raw materials from discarded wood and agricultural waste, to produce processed wood products that are biodegradable. At the end of the product life cycle, the processed wood products disintegrate and return to the earth as compost and fertiliser.

- GPac™ pallets' wood source obtained from sustainable forest.

- GPac™ pallets disintegrate and return to the earth as compost and fertiliser at the end of the product life cycle.

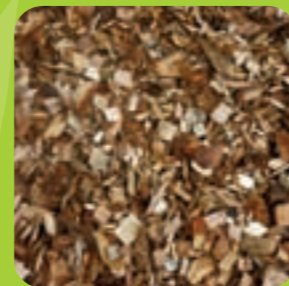

- Trees are not cut for the purpose of making GPac™ pallets; instead, the pallets use unwanted off-cuts.

- GPac™ pallet

- Patented technology and formulation

- Wood chips are grinded in-house into wood fibers

P9M

1200 x 1000 x 125mm
18 kg weight
4 tons max stacking load
1 ton max lifting load

P9LSE

1219 x 1016 x 140mm
17 kg weight
3.2 tons max stacking load
0.8 ton max lifting load
0.8 ton max racking load

P11MS

1300 x 1100 x 145mm
34 kg weight
6.0 tons max stacking load
1.5 tons max lifting load
1.0 ton max racking load

P10M

1100 x 1100 x 115mm
18 kg weight
4 tons max stacking load
1 ton max lifting load

P10MS

1100 x 1100 x 133mm
28 kg weight
6.0 tons max stacking load
1.5 tons max lifting load
1.0 ton max racking load

P10L - D2

1100 x 1100 x 125mm
19 kg weight
4.0 tons max stacking load
1.0 ton max lifting load
1.0 ton max racking load

P16L - A1

1219 x 812 x 120mm
13 kg weight
4 tons max stacking load
1 ton max lifting load

P18L - C2

1219 x 1016 x 115mm
16 kg weight
4.0 tons max stacking load
1.0 ton max lifting load
1.0 ton max racking load

P20L - A

1219 x 508 x 115mm
7 kg weight
2 tons max stacking load
0.5 ton max lifting load

Pallets suited for all industries; customization and other models available upon request. Weight subject to changes due to variation in density, tolerance +/- 1kg; All loads stated refer to uniform load.
